

UNIVERSITY OF CALIFORNIA

DEPARTMENT OF CHEMISTRY
LOS ANGELES 24, CALIFORNIA

November 13, 1952

Professor Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison, Wisconsin

Dear Professor Lederberg:

I am writing to ask if you would be so good as to send me a brief outline of the courses in genetics offered in your Department. I wish to inquire also if genetics courses are given in other departments of the University, and if so, what courses.

If you are willing to do so, I would be grateful for your opinion concerning the desirability or undesirability of establishing a department of genetics in a University such as UCLA. At the present time genetics courses are offered in a number of departments.

Your cooperation in this matter will be greatly appreciated by the Life Science Planning Committee.

With kind regards,

Very sincerely yours,

M. S. Dunn, Chairman
Chemistry 5070
